This spreadsheet includes Census Tract and county level data on the percentage of the population that is "minority" (not Hispanic or Latino, and White race alone) for 41 HOME activities and projects completed in FY 2020-21. Data on race and ethnicity are from the 2019 American Community Survey 5 Year Estimates on data.census.gov. Census Tract is not reported for Tenant Based Rental Assistance projects. "High minority concentration" is defined as Census Tracts where the population percentage minority exceeds the county population percentage minority by 10 percentage points or more.

Of the 41 total activities (excluding TBRA), 42 percent were in Census Tracts with high minority concentration. Examining the data by activity type, 51 percent of homebuyer activities were in Census Tracts with high minority concentration; 100 percent of owner occupied rehabilitation activities were in Census Tracts with high minority concentration; and 67 percent of rental projects (new construction, rehabilitation, and acquisition rehabilitation activities) were in Census Tracts with high minority concentration. The report contains three rental projects which have been highlighted in yellow. The rental project in Visalia contains 32 HOME units. The rental project in Anderson contains 22 HOME units. The rental project in Lakeport contains 23 HOME units. All other activities listed by row represent a single HOME unit.
